BESSEMER TRUST COMPANY (CAYMAN) LIMITED ("BTCAY") - 31 DECEMBER 2024 OVERVIEW OF RISK MANAGEMENT AND RISK WEIGHTED ASSETS (RWA) OVA - Bank and risk management approach

BTCAY's focus is on prudently managing and minimizing risk, maintaining effective controls and protecting shareholder capital. The risk framework is guided by the following:

- 1 Bessemer Trust is privately owned and independent, it is a family office that has served individuals and families of substantial wealth for more than 118 years.
- Bessemer Trust entities are focused on providing comprehensive wealth management services to high-net-worth individuals and families. These services include investment management, custody, fiduciary/trustee, wealth planning, tax planning and compliance, insurance advisory, family office services as well as some banking services. In 2024, over 90% of the Group's consolidated revenue was generated by wealth management services. BTCAY's revenue from such services equaled 38% of its 2024 revenue.
- BTCAY serves clients with offshore needs by providing the following services: management and administration of Cayman-based companies; management and administration of companies from other offshore jurisdictions; trustee services; investment management services; custody services; and mutual fund set-up and administration. It is important to note that BTCAY does not provide any of the following services: banking (e.g., deposits; lending); insurance; securitization; and off-balance sheet investing.
- BTCAY focuses on client service and long-term results. Accordingly, the Board of Directors and management seek to make decisions and investments that are in the best long-term interests of its shareholders, clients, and employees. This results in conservative management of BTCAY's balance sheet and business activities.
- 5 BTCAY has no outstanding debt.
- BTCAY and its parent strive to maintain the high-quality reputation of Bessemer Trust and its shareholders. This requires the Group to manage and mitigate risk through: well-designed internal controls; policies and procedures; employee training and awareness; comprehensive compliance, internal and external audit programs; and robust governance and oversight. The Company also has an Information Security Program that is responsible for protecting Company and client information, among other responsibilities. In addition, the Company maintains a comprehensive Vendor Management Program.

¹ Bessemer Trust is the marketing name for The Bessemer Group, Incorporated and its subsidiaries worldwide. Investment management, custody and fiduciary services are provided in the United States by Bessemer Trust Company, a New Jersey state chartered bank and depository trust company located in Woodbridge, NJ and regulated by the Federal Deposit Insurance Corporation (FDIC) and the New Jersey Department of Banking and Insurance, Bessemer Trust Company, N.A., a national bank located in New York, NY and regulated by the Office of the Comptroller of the Currency, Bessemer Trust Company of California, N.A., a national bank and non-depository trust company located in San Francisco, CA and regulated by the Office of the Comptroller of the Currency, Bessemer Trust Company of Delaware, N.A., a national bank and non-depository trust company located in Wilmington, DE and regulated by the Office of the Comptroller of the Currency, and Bessemer Trust Company of Florida, a Florida state chartered non-depository trust company located in Palm Beach, FL and regulated by the Florida Office of Financial Regulation and the Federal Reserve Bank of Atlanta. Bessemer Trust Company (NJ) and Bessemer Trust Company, N.A. (NY) are FDIC members and their deposit accounts are insured by the FDIC up to the standard maximum deposit insurance limits established by FDIC rules. The other companies that are part of Bessemer Trust are not members of the FDIC and do not issue FDIC-insured deposits. Bessemer Trust Company (Cayman) Limited provides investment management, custody and fiduciary services in the Cayman Islands. Bessemer Investment Management LLC is an SEC-registered investment adviser located in New York, NY, and Bessemer Investor Services, Inc. is an SEC-registered broker dealer located in New York, NY and member of FINRA

BESSEMER TRUST COMPANY (CAYMAN) LIMITED ("BTCAY") - 31 DECEMBER 2024 CAPITAL

CAP Details on the bank's capital, including specific capital instruments

BTCAY's capital is limited to common shares all of which is owned by its parent, The Bessemer Group, Incorporated

Authorised Share Capital: 2,000,000 Issued Share Capital: 1,550,000

US\$1.00 per share

As of December 31, 2024:

Book Capital - US\$1,550,000 Tier 2 Capital - US\$0.00 Tier 3 Capital - US\$0.00

- (a) <u>Summary</u>: BGI achieves its objective of being well capitalized through conservative balance sheet management and a robust monitoring and capital planning process for each subsidiary, including BTCAY. On an annual basis, the Company prepares a comprehensive Business Plan within which net income and capital levels are projected. Revised forecasts are prepared throughout the year. In addition, management will periodically review multi-year projections under varying assumptions.
- (b) <u>Capital requirements</u> <u>for credit risk</u>: Credit risk relates to the financial loss stemming from a borrower's failure to repay a loan, or a counter-party's failure to meet a contractual obligation.

BTCAY manages its balance sheet conservatively. Its assets are invested principally in cash and cash equivalents. BTCAY does not engage in lending activities.

The Basel II Pillar I minimum capital requirement for credit risk, based on the framework under the Standardized Approach, is taken as the starting point in considering what internal capital may be required. An assessment is first made as to whether the capital calculation fully captures the credit risk faced by BTCAY. Given the low risk appetite and its risk management policies, it is deemed appropriate that the Basel II Pillar I calculation of credit risk does capture the risk fully.

(c) <u>Capital requirements for market risk:</u> A downturn in equity markets may reduce the valuations of the client assets thereby reducing financial service fee revenue and earnings. The potential negative impact of market risk is mitigated by the fact that model portfolios are well diversified and traditionally allocate a portion of assets to fixed income and other investment classes, which have relatively less equity market volatility. In the event of a significant decrease in fee revenues, management would take appropriate steps to reduce certain expenses to minimize the impact on net income and capital.

Weak economic conditions may also affect wealth creation, investment preferences and savings patterns, each of which could negatively impact the: demand for trust and investment services; the addition of new client assets; net additions and withdrawals for the accounts of existing client accounts.

Based on the Basel II Pillar I capital adequacy requirements prescribed by the Cayman Island Monetary Authority ("CIMA"), BTCAY has low market risk given that it does not directly operate a trading book for clients or its own account and does not enter into any financial derivatives contracts.

BTCAY has no debt currently outstanding. It therefore is not exposed to rising interest rates.

All corporate assets are held in United States Dollars, which is the functional currency of BTCAY.

(d) <u>Capital requirements for operational risk</u> In providing services, BTCAY is exposed to operational risk. This is generally defined as human, operational or technology error, failure or breach that has, or could result in, financial, reputational, or regulatory impact.

BTCAY views the management of operational risk as integral to its objective of protecting its capital, clients, and shareholder. The firm's success is also dependent upon maintaining its reputation as a sound and well- managed organization with existing and prospective clients, shareholder and regulators. In order to maintain this reputation, the firm seeks to minimize the frequency and severity of operational losses.

The firm's operational risk is managed and mitigated through sound systems and effective internal controls embedded in its business activities coupled with robust assessment and management practices, which are designed to continuously monitor the effectiveness of these controls. These systems and controls are periodically tested by internal and external auditors, and by way of periodic inspections by CIMA.

Additionally, BYCAY's parent has adopted an Operating Event Management Policy ("Policy") which is applicable to BTCAY, and addresses the timely identification, escalation, resolution, and reporting of Operating Events. An Operating Event is defined as a human, operational or technology error, failure or breach that has, or could result in, financial, reputational, or regulatory impact.

Basel II Pillar I calculates capital required to meet operational risk requirements. BTCAY has adopted the "Basic Indicator" approach which equates to 15% of BTCAY's average operating income, as defined by regulators, taken over the last three years. As of December 31, 2024, the minimum capital requirement, as calculated under this approach, was US\$0.4 million as compared to actual capital of approximately US\$11.8 million.

(e) Total Capital Adequacy Ratio: 0.9917; Tier 1 Capital Ratio 0.9917

BESSEMER TRUST COMPANY (CAYMAN) LIMITED ("BTCAY") - 31 DECEMBER 2024 LIQUIDTY

LIQA - Liquidity Risk Management

Liquidity planning is focused on BTCAY's ability to satisfy short-term financial requirements. Important considerations include the following:

- BTCAY does not act as a depository bank, and this eliminates an important component of liquidity management.
- The firm has no debt outstanding, thus has no debt service requirements.
- · The firm does not trade, thus there is no counterparty risk.
- Holdings are readily liquid.
- · Client fee revenue is directly debited from BTCAY client accounts.
- The firm has no Preferred Stock nor a commitment to pay dividends.

It is the responsibility of the Board of Directors, supported by management, to ensure that adequate liquidity is maintained. Firstly, BTCAY monitors cash inflows and outflows on a daily basis taking into consideration all projected distributions. Secondly, BTCAY's assets consist primarily of cash and cash equivalents and investments in mutual funds, all of which are highly liquid.

Management maintains liquid assets as a percentage of capital in excess of regulatory minimums.

BESSEMER TRUST COMPANY (CAYMAN) LIMITED ("BTCAY") - 31 DECEMBER 2024 OPERATIONAL RISK

OPR - Qualitative and quantitative disclosure requirements related to operational risk

In providing services, BTCAY is exposed to operational risk. This is generally defined as human, operational or technology error, failure or breach that has, or could result in, financial, reputational, or regulatory impact.

BTCAY views the management of operational risk as integral to its objective of protecting its capital, clients, and shareholders. The firm's success is also dependent upon maintaining its reputation as a sound and well- managed organization with existing and prospective clients, shareholder and regulators. In order to maintain this reputation, the firm seeks to minimize the frequency and severity of operational losses.

The firm's operational risk is managed and mitigated through sound systems and effective internal controls embedded in its business activities coupled with risk management practices, which are designed to continuously reassess the effectiveness of these controls. These systems and controls are periodically tested by internal and external auditors, and by way of periodic inspections by CIMA.

Additionally, BTCAY's parent has adopted an Operating Event Management Policy ("Policy") which is applicable to BTCAY, and addresses the timely identification, escalation, resolution, and reporting of Operating Events. An Operating Event is defined as a human, operational or technology error, failure or breach that has, or could result in, financial, reputational, or regulatory impact for BTCAY or its clients.
